By a constitutional provision the tie between the two names on the Republican ticket threw the choice of a president finally into the house of representational provision that the propular measures. In 1804 Jefferson's re-election was a feregone conclusion, the Federal candidates receiving but few electoral votes. Four years later, under the dissatisfaction due to the embargo act and the injury which it worked to business, a small additional number of votes were counted for the Federal candidates, but the party was not really strengthened. The Republicans meantime, through the irresistible force of events saw that their predilection for strong state governments along with a weak national government, if carried to its logical conclusion, would doom the infant nation to disaster and ultimate extinction.
